# PROBLEM STATEMENT

## 1. Personal Portfolio Website

Problem: Recruiters often miss candidate's skills because resumes are static and unattractive.

## 2. E-Commerce Store

Problem: Customers face difficulty finding products from local shops without a proper online platform.

# PROJECT OVERVIEW

The Digital Portfolio Website is a personal platform designed to showcase individual skills, projects, and achievements in a professional manner. It highlights personal branding, creative work, and technical expertise through a clean and interactive interface. The portfolio serves as an online resume, making it easier for potential employers, clients, or collaborators to explore one's work. Built with HTML, CSS, and JavaScript, it ensures responsiveness, user-friendly navigation, and an engaging experience. This project emphasizes self-presentation, accessibility, and digital presence in today's competitive environment.

# WHO ARE THE END USERS?

1. Students / Job Seekers – Their portfolio shows projects, skills, certificates for placements or internships.
2. Employers / Recruiters – They check the portfolio to evaluate candidate skills and achievements.
3. Teachers / Mentors – To assess student's work, creativity, and growth.
4. Clients – Freelancers ku portfolio la work samples, services prove

# TOOLS AND TECHNIQUES

For creating a digital portfolio, tools like Canva, Google Sites, Wix, WordPress, Behance, and GitHub can be used. These help in designing and showcasing projects easily. To make the portfolio effective, techniques such as clear layout, high-quality visuals, concise descriptions, proper categorization, and adding interactive links are important.

# FEATURES AND FUNCTIONALITY

A digital portfolio includes key features such as a profile section with personal details, a project showcase to highlight works, a skills and tools section, an option to upload or download resumes, a contact section, and customization options like themes and layouts. Its functionalities focus on easy navigation through menus, responsive design for mobile and desktop use, search and filter options for projects, interactive elements like animations, sharing or downloading options, and feedback or testimonial sections. Together, these features and functions make the portfolio professional, user-friendly, and engaging
